CAREER OBJECTIVE:

Intend to work in an environment that enhances my skills & motivates me to utilize my potential to the fullest extent to contribute to the company both individually as well as a team.

PROFESSIONAL SUMMARY:

- Strong foundation in **core Java**, **OOP principles**, and **data structures**.
- Hands-on experience with **Java application development**, **JDBC**, and **Servlets**.
- Familiar with **Spring Boot**, **MySQL**, and **RESTful APIs** through personal projects.
- Basic knowledge of **HTML, CSS**, and **JavaScript** for full-stack understanding.
- Ability to work in collaborative environments using tools like **Git** and **VS Code** or **Eclipse**.
- Quick learner, passionate about technology, and eager to grow as a **Java developer** in a professional setting.

TECHNICAL SKILLS:

- **Programming languages:** Java.
- **Programming frameworks:** React, SpringBoot.
- **Databases:** SQL.
- **Technologies:** Git, Docker.
- **Languages:** Kannada(native), English (Full professional fluency), Hindi.

ACADEMICS:

- **VISHVESHWARYA TECHNOLOGICAL UNIVERSITY**   *BELGAVI, INDIA*
  BE Electrical And Electronics; GPA: 8.6/10.0   *12/2021-06/2025*
- **ST. ALOYSIOUS PU COLLAGE**   MANGALURU, INDIA
  PU PCMB; percentage: 82.0/100.0   *05/2019 – 7/2021*

INTERNSHIP DETAILS:

Web and Mobile- Application Development   *Rooman technologies, by VTU*
- Completed a **3-month internship** in **Web and Mobile Application Development**.
- Built **responsive web interfaces** using **HTML**, **CSS**, **JavaScript**, and **React**.
- Integrated **RESTful APIs** to connect frontend with backend services.
- Contributed to enhancing **UI/UX design** for improved user experience.
- Gained hands-on experience in **full-stack development** and **version control** using **Git**.
- Collaborated in an **agile development environment**, participating in team meetings and sprints.

PROJECTS:

1. CHATAPP
Developed a real-time chat application using HTML, CSS, and React, incorporating features such as instant messaging, secure user authentication, and real-time user presence tracking. Focused on building a responsive and user-friendly interface to ensure seamless communication across devices. Gained practical experience in full-stack development and real-time data transfer using protocols like Web Sockets. This project enhanced my skills in debugging, team collaboration, and integrating client-server architecture for smooth and efficient performance.

2. FINANCIAL APP

Developed and deployed a fully responsive financial application landing page using React JS and Tailwind CSS. Designed a sleek, mobile-friendly user interface that adapts seamlessly across various screen sizes. Gained hands-on experience with component-based architecture, responsive design best practices, and deploying modern React applications using contemporary frontend development tools.

ACHIEVEMENTS:

- **VTU EMERGE WINNER:** Won for developing an Innovative, real-world solutions at VTU Emerge, a prestigious university-level innovation competition.
- **Selected for SSP-48:** Compact Sanitary Napkin Incinerator project showcasing innovation in its Design and Working.

HOBBIES:

- Singing
- Poem Writing
- Dancing
- Reading
